

### **DESCRIPTION:**

16' Diameter Deck. Same construction as standard Steeldeck® platform using steel truss frame with high quality 3/4" plywood tops. Tops are insulated from frames to reduce noise and vibration. Deck will accept 5 legs of 1 1/2" Schedule 40 steel pipe. Legs are held in place by a hand knob. Decks are connected to each other by bolting through pre-drilled holes along straight edges. Four left hand and four right hand decks around two 4' x 8' decks make a 16' diameter circle. Can be used to round off stage corners.

### **TECHNICAL SPECIFICATIONS:**
