

SOFT GOODS

Care and Folding Instructions

Wrinkles

1. Let the drape hang and wait for wrinkles to fall out.
2. Please contact Chicago Scenic Studios, Inc. before trying to treat the fabric.

Folding

Before you start folding, find the identification tag on the drape or drop and pair it with the bag of the same label.

1. Sweep the area where the drop will be laid out.
2. With the drop on its back, fold bottom up to the top. Repeat until drop is folded to a 2 ½' to 4' strip.
3. Fold side ends in to 4' from the center. Repeat until folds are 2 ½' to 4' wide (depending on bag size).
4. Fold one side over onto the other half.
